**Special Characteristics**

1. The male has a poisonous spur on his back leg.

**Drawing of animal:**

**What it eats:** The Platypus eats fish, shrimps, and insects.

**How it moves:** They paddle in water and use their claws when walking.

Excellent awareness of the features of an information report

Capital letters and full stops have been appropriately used

**Grade Commentary**

Flynn has demonstrated an excellent awareness of the features of an information report. The scaffold has been well used and descriptive language has been included. Letters have been correctly produced, and there is evidence of the use of a variety of spelling strategies. To progress further, Flynn should work on the proportions of letters to each other.

Flynn’s response demonstrates characteristics of work typically produced by a student performing above the expected standard.
