Snakes are reptiles.

They are scary.

Snakes live in the jungle.

They move with their bones.

Snakes eat birds.

Snakes have eggs and they hatch.

An excellent awareness of the features of an information report

Grouping of similar information about features of the animal is required
Grade Commentary

Kerry has demonstrated an excellent awareness of the features of an information report. Punctuation has been used consistently and appropriately, and there is evidence of the use of a variety of spelling strategies. To progress further, Kerry should group together similar information about features of the animal.

Kerry’s response demonstrates characteristics of work typically produced by a student performing above the expected standard.
