End Stage 2 English – Discussion – Grade C

Discussion

Some people think transport is very helpful.

People think it is good because it moves us around. It takes us to places we can’t reach on foot. It helps people to meet and say “hi” to each other.

Transport can move people quickly. Transport is more comfortable than walking.

It will carry objects and people at the same time. It can help by saving our own energy.

Some people think transport is bad because it can pollute the air, or have oil leaks. It can easily kill people in accidents.

Transport is sometimes very noisy. It can cause traffic jams. Sometimes it causes, stress, frustration and road rage. It also uses up our natural resources.

Transport will be perfectly good if we were careful.

Grade Commentary

Sam has demonstrated a sound understanding of the structure of a discussion and the use of language features demonstrates correct modality. Some definition of the topic for discussion is required. The conclusion is adequate but could be expanded.

Sam’s response demonstrates characteristics of work typically produced by a student performing at a grade C standard.
