My excursion to Symbio

Orientation

On Tuesday the 4th of March year 2 went to Symbio wildlife park to learn about Australian animals.

Sequence of events - What happened first?

We got in to groups I was in Mis group and had reces.

Sequence of events - What happened next?

Next we saw the spider monkeys swinging on ropes, emus running around and the koalas sleeping in the gum trees.

Sequence of events - What happened after that?

We all went to the show there was a koala, a posim and a owl we got to pat the koala the posim and the owl then the show was over it was time to get back on the bus.

Re orientation

(Findings/Feelings)

It was a great day I liked the spider monkeys the best.
Grade Commentary

Kerry has demonstrated thorough knowledge and understanding of the structure and features of a recount. The writing has been well planned and paragraphing has been used appropriately. Events have been sequenced using mostly simple sentences, and a personal comment has been included. A high level of competence is evident in the use of grammatical features such as adverbial phrases and time connectives, and there is good use of descriptive language to add detail. There is evidence of editing from the draft to the final product, and most common words have been correctly spelt but capital letters have not been consistently used. The handwriting is consistent in size and slope.

Kerry’s response demonstrates characteristics of work typically produced by a student performing at a grade B standard.
