Grade Commentary

Xiang has demonstrated basic knowledge and understanding of the structure and features of a narrative. A brief orientation has been provided but there is no real complication and the conclusion is incomplete. Some appropriate vocabulary has been used and there are some interesting sentence beginnings but the sentence structure is basic. Some connectives have been used to link events. To improve, Xiang should structure the text in paragraphs and work on developing a stronger complication and conclusion.

Xiang’s response demonstrates characteristics of work typically produced by a student performing at a grade D standard.
