End Stage 3 Mathematics – What’s the Problem – Grade C

1. I am a mixed number more than $\frac{1}{2}$ and less than 2. Who am I?

2. $1 \times 1 + 2 - 1 \frac{1}{2}$

2.5 - 1

Currently 1. Add 2 and divide the answer you get by 2. What number would I now be?

Add 2 and takeaway 1, add 3 and takeaway half of 3 + 1. My answer is 2. What number was I at the start?

If you add $\frac{1}{2} + 1$, what do you get?

3.8 - 2.3

-3.8 + 5.3

3.8 = y + 4

3 + -1.5

3 $\div$ 2

1 + $\frac{4}{8}$

Grade Commentary

Alex has demonstrated sound knowledge and understanding of fractions. All four operations have been used to give the answer one-and-a-half.

This work sample demonstrates characteristics of work typically produced by a student performing at grade C standard.
