End Stage 3 Mathematics – What’s the Problem – Grade E

1. Sophie has 2 apples, and she ate half of one. How many apples does she have now? = 1 1/2

2. \( 2 \times \frac{1}{2} = 1 \frac{1}{2} = 1 \frac{1}{2} \)

3. \( 2 \div 3 \)

4. \( \frac{1}{2} \)

5. \( \frac{1}{4} \times \frac{1}{2} = 1 \frac{1}{2} \text{ ml} \)

Grade Commentary

Robyn has demonstrated elementary knowledge and understanding of fractions. Teacher assistance will be needed to accurately complete this task.

This work sample demonstrates characteristics of work typically produced by a student performing at grade E standard.

Only a minimal number of questions has been recorded and these lack accuracy.

Word problems and number sentences have been included but they do not use all four operations or involve more than one operation.
