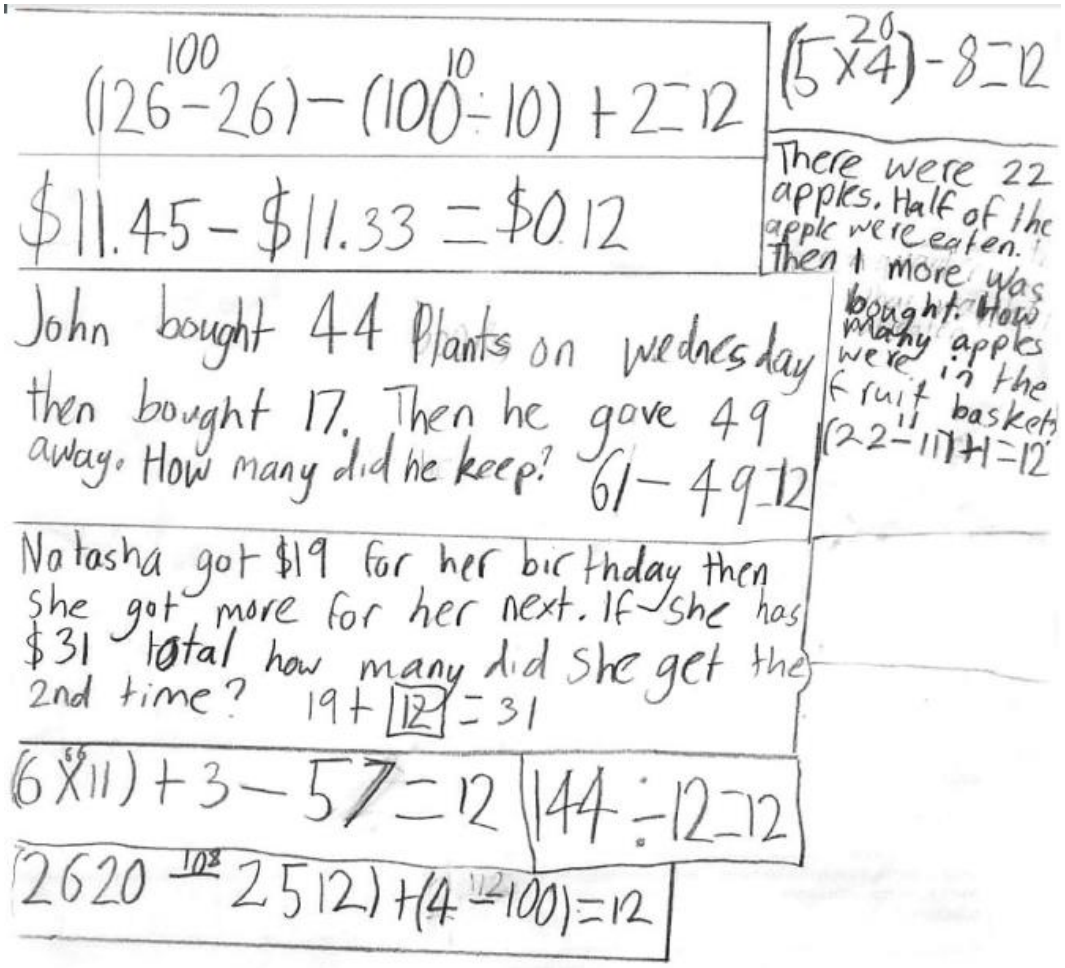
Mid Stage 2 Mathematics What Could the Question Be? – Grade A



All four operations have been used and the calculations are mostly accurate

Complex word problems have been created and complex number sentences using brackets and negative numbers have been included

Grade Commentary

Morgan has demonstrated a very high level of competence in constructing mathematical problems using different operations. To progress further, Morgan could include problems involving fractions and revise the use of brackets.

This work sample demonstrates characteristics of work typically produced by a student performing at grade A standard.
